SET-Plan Actions

- **SET-Plan (Strategic Energy Technology Plan), EU-members + Iceland, Norway, Switzerland, Turkey**
- **14 Implementation Plans, of which #8 is Bioenergy and Renewable Fuels for Sustainable Transport**
 - Temporary Working Groups TWGs to prepare Implementation Plans (IP) – all 14 done now
 - Implementation Working Groups IWG to execute the IPs
- **IPs Implementation, Monitoring of the implementation work: JRC and IWGs**
 - IPs are not the similar (Concentrated Solar Power, Smart Cities and Communities, Nuclear etc.)
 - There are cross-cutting issues, strong and weak between IPs (EVs, Fuel Cells and Hydrogen & Smart Grids and Cities etc.)
 - There are supporting acts (by EC) to help IPs and coordination: SET-4-22 (EERA) etc.

Action 8 and Implementation Working Group

- The establishment of IWG for Action 8 (IWG #8) is finishing up – based on TWG #8
- The core-team (Timo, Franco, EC/JRC Nicolae Scarlat, ETIP Bioenergy etc.) is working
- 1st meeting of IWG #8 is planned for Friday 28 June in Brussels (tbc)
- Sub-sectors and perhaps (later) sub-groups: Transport; liquid or gaseous biofuels, hydrogen & FC, electrofuels & Stationary power etc.
- IWGs have interested SET-Plan countries (gov. / funding agency), related ETIPs (or similar), other stakeholders to the sector
- IWG #8 (at this moment):
 - Countries: FI, IT, FR, CY, DE, ES, NL, PL, SE, TR and EC: JRC, RTD, ENER
 - ETIPs Bioenergy & RHC, FCH-JU, EERA-Hydrogen, VTT, Fraunhofer Ins., ENI ...

IPs and IWGs, but....

- **SET-Plan, IPs, IWGs are not doing the research, funding, investment decisions, construction of pilots, operation etc.**
- **The real work is done by stakeholders: universities, research institutes, companies etc.**
- **Cooperation, joint programs etc. is beneficial**
- **SET-Plan and IWGs work as umbrellas, cover best European practice & know-how**

Thank you!

Kiitos!
